Summary

If you're looking to land your dream job in 2022, then you're at the right place.

During my 1st year in college, I spent 100+ hours every year in hopes to land my dream internship. Nothing worked. Careers centers told me to keep applying to my dream jobs but I kept receiving messages that start with "Thank you for your interest but..."

Fast forward to my 3rd year in college, I became the first intern at Google from my school. Once I started full time as an Analyst at Google, I fortunately moved to become a Sr. Strategy & Operations Manager in 2 years; while interviewing at 20+ top tech companies including Facebook, DoorDash, LinkedIn & more.

I felt the recruiting pains and post on LinkedIn share my learnings and demystify the recruiting process.
